26-27 November	Main St	Running support groups	05	TBA	
3 December	Main St	Train the trainer		TBA	

## Notes

1. All bookings for trainings should be made through the training administrator, Lungile Seitshiro, on [lseitshiro@auruminstitute.org](mailto:lseitshiro@auruminstitute.org) or on (011) 638-3135.
2. For enquiries about the content of the training programmes, contact the training manager, Robin Hamilton, on [rohamilton@auruminstitute.org](mailto:rohamilton@auruminstitute.org) or on (011) 638-2825.
3. All trainings are conducted at our offices on the fifth floor at 45 Main Street, Johannesburg, unless otherwise specified.
4. Trainings which are designated as on site can be arranged at clinic or workplace settings, as long as a minimum number of 8-10 people are enrolled for the training.
5. Two new counselling courses are Sexuality (23) and HIV prevention (24). Sexuality is aimed at giving doctors, nurses and counsellors the skills to talk to patients about sexual issues, a topic many health-care workers avoid. The HIV Prevention course is aimed at providing more focused HIV prevention counselling, and utilises some of the skills developed in the Sexuality course. We recommend that the courses be attended in succession.
6. Another new course is paediatric ART for doctors (25). It is a one-day overview of providing children with antiretroviral treatment, and includes guidelines on clinical aspects, as well as adherence and an overview of counselling children and caregivers effectively.
