

Dinamap Vital Signs Monitor - With Stand

Product Code: V100

Availability: Out Of Stock

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The CARESCAPE™ V100 monitor is designed for care areas where patients require vital signs measurements.

The CARESCAPE V100 monitor is the ideal “2 in 1” device. Its ease of mobility and versatility mean that it can either be used for continuous monitoring or for routine checks of vital signs, without needing to take up valuable clinician time. In this way, it considerably increases overall productivity. The monitor’s ruggedness, with up to 11 hours of battery life, gives you the reliability and mobility you need to monitor patients throughout the unit.

Specifications

- GE DINAMAP SuperSTAT (with intra-arterial reference) blood pressure algorithm supports speed, comfort and artifact rejection.
- Choose from three SpO2 measurements: GE Ohmeda, Nellcor or Masimo.
- Optional Exergen Temporal scanner
