Description

Protective Safety Goggles

Made from PC material, it is light, tough and does not sink when worn. The surface of the PC lens has been specially strengthened to prevent friction and impact. The curved design of the lens makes the field of vision wider, clearer and more durable. The elastic band design allows one to adjust tightness being suitable for various head shapes.

- Material: PC
- Lens Color: Transparent
- Effectively prevent dust, wind, sand and impact. Prevent the spray of bodily fluids, isolate and protect eyes.
